

Ceremony Worksheet

Refer to the corresponding "Comments and Suggestions" document for assistance.

Use this worksheet to keep notes on which pieces of music you like (and don't like). The right side is for your notes, and the left side is for your final selections. Your ceremony may not match exactly what is listed below, so make all necessary additions and deletions before assigning titles so you have a clear picture of which parts of your ceremony will use music. *Optional parts of a ceremony are in italics (although some of these optional parts are not optional for Catholic weddings.)* Parts of a ceremony that are specific to a Catholic wedding are noted although other religions may choose to include them as well. If you are not sure where to assign the pieces that you like then leave the "FINAL" column empty and we will assist you. You can also fill in what you know you want in the "FINAL" column and leave some of the sections blank and we will make suggestions for you. Enjoy the process!
